

Please do not allow LPFM stations to take over where we currently have FM translator service. K-LOVE radio is the best station we have in this small mountain town and I would be lost without it. We have public radio also so we are well served. K-Love is a very positive family friendly radio station and it would be devastating to something take over from this translator station.
Thank you for hearing my point of view. Radio is very important when you live in fairly isolated areas.
